Divorce (the dissolution of a marriage), according to scriptural harmony is justified three ways. When the believer is abandoned, when adultery takes place and when the physical abuser is unrepentant.

Divorce should only be used as a final option after time for repentance, prayer, communication, separation and Godly counsel have been given precedence to resolve all issues.

Separation should be used when there is a safety factor for the spouse and/or children and emotional & physical healing is needed. A Christian must use the separation prudently...or multiple challenges may compound the current crisis.

Whenever divorce or separation is in view, the main focus & objective must still be reconciliation and restoration.

The most devastating sins in the divorce are the sins of unforgiveness, bitterness & all the unfruitful actions that are intertwined in the entire preceding.
