

LIFE CHANGING MINISTRIES

Marriage Enrichment Seminar

The Parental State

The Bible is complete with instruction on how the Christian parent should train up their child. It provides you with the answers about parenthood. By applying the Word with God's direction through the Spirit, your parental tutelage will become fruitful and effective.

Handwritten notes:

- direct/simple (pointing to train up)

The first objective is for the parent to be the Christ like example both in church and in the home. This will facilitate the child's respect and cause Biblical teaching to be deemed as real.

Handwritten note:
- not hypocritical (underlined under the text)

If your child is in the home, then the parent must provide a Christian atmosphere which includes but is not limited to: Scripture devotions, prayer, listening ministry, discipline and a family vision for children that are born into AND born from the marriage.

If your child is not in the home, we must trust the Lord that we have done our part and that the Lord will keep and protect our child. We must release our child to the Lord, be prayful, trust & continue to speak the Word.
